A Brief History of Time

by Stephen Hawking

This is the Tenth Anniversary Edition with an introduction by the author. It is offered in 18 and 28 point type, 345 and 778 pages respectively and with an ASCII version for screen readers. The disk contains 24 MB because the text is augmented with illustrations. It attempts to explain a range of subjects in cosmology, including the Big Bang, black holes, light cones and superstring theory, to the nonspecialist reader. Its main goal is to give an overview of the subject so it includes only a single equation: $E = mc^2$. This is the 1998—The Tenth Anniversary Edition.

The Chronicles of Narnia

by C.S. Lewis

The Chronicles of Narnia is a series of seven fantasy novels for children, considered a classic. The adventures of children take place in Narnia, a place with magic and witches, and centaurs and talking animals. And Narnia is an inviting place -- it isn't always fun or pleasant, but there is always the feeling that the good guys will ultimately -- if not immediately -- come out on top. Adults take pleasure in reading or re-reading the Chronicles because of the Christian allegories. In addition the series borrows characters and ideas from Greek and Roman mythology, as well as from traditional English and Irish fairy tales. On a main menu we have listed the books in the original order published, but each book is a separate and independent story and can be read in any order. The CD contains All seven of the novels in 18 and 28 point type. 30 MB.

Crime & Punishment

by Fyodor Dostoyevsky

A destitute student commits a murder. What leads up to it and the consequences. A classic study of the interplay between action and morality. Is a "great man" above the law? A detective story, but more a description of a mind plagued by doubt, delusion and remorse. On every list of great books. There are five versions, 28 and 48 point type for printing and versions for viewing on a computer screen without scrolling. An ASCII version is included for screen readers. The disk contains 14 MB.

One Faith, One Lord

by Rev. Msgr. John F. Barry

A single comprehensive volume that presents the fundamental beliefs and practices of the Catholic faith. This work has ecclesiastical approval and is in conformity with the **Catechism of the Catholic Church**. This popular text has proven to be an ideal introduction for those who have minimal catechesis. It can be used effectively in developing and assessing readiness for the sacraments of Reconciliation and Eucharist, or as a review for Confirmation candidates. In 28 point type with separate graphics of the Stations of the Cross. Disk is 23 MB.
